PERFORMANCE REVIEW / DEVELOPMENT & DIGITAL

Five-month Professional Work Report

Project delivery, digital marketing reporting and professional growth.

PREPARED BY

Ranjith S

UI Developer

Seyfert Infotech

PORTFOLIO COVERAGE

Websites & admin panels
Editable platform & mobile application
SEO & monthly digital marketing reports
Next.js, PHP & MySQL learning

PREPARED 24 OCTOBER 2026

01 / OVERVIEW

Contribution at a glance

A single view of my project work, responsibilities and delivery across the review period.

My work as a UI Developer combined website implementation, admin panels, editable content features, mobile application work and SEO delivery. I also prepared monthly digital marketing reports for all assigned digital marketing clients, while managing corrections, testing and deployment support.

10	4	5	1
WEB PROJECTS	**ADMIN PANELS**	**SEO ACCOUNTS**	**MOBILE APP**
9 complete; 1 ongoing	Delivered panel scope	Core client websites	Sri Pondy Fire Safety

How this report is organized

03	Workflow and delivery progression
04-05	Complete website portfolio and delivery details
06	Admin panel delivery
07	Chakra Cargo editable platform - in process
08	Pondy Fire and Safety mobile application
09-11	SEO portfolio, results and content delivery
12-13	Quality, monthly client reports and team support
14-15	Technical learning and consolidated review

REPORT BASIS

Combines the June-September dated records with my latest project list, completion updates and monthly reporting responsibilities. The two July reports are reconciled as one month; my latest update identifies Chakra Cargo as in process.

02 / WORK PROCESS

Workflow and progression

The work moved from page construction and corrections to dynamic delivery, search visibility and operational support.

JUNE

Website foundation and admin delivery

Built Pondy Fire and Safety pages and its admin interface; completed SEO audits; progressed hospital, drainage-service and Adisal Bay website work.

JULY

School websites and quality assurance

Completed Blue Star and Hindocha website work through Seytest deployment. Handled imagery, URL corrections, gallery updates and CRM testing.

AUGUST

SEO scale and recorded visibility

Completed 194 Pondy SEO/AEO/GEO pages and 40 Turbo local SEO blogs. Supported the Pondy live move and documented search results.

SEPTEMBER

Dynamic features and publishing

Delivered Chakra panel and deployment fixes, Smile and Glow dynamic functions, 903 blog-item operations and six client reports; progressed the Pondy app.

LATEST UPDATES

Portfolio and client reporting

Confirmed 10 website projects: nine completed and Chakra Cargo in process. Added monthly reports for all digital marketing clients, plus Next.js, PHP and MySQL learning.

My working sequence

PLAN > BUILD > VERIFY > DELIVER

Clarify page and feature requirements; prepare the layout and content; implement UI or dynamic changes; check responsiveness, links and forms; correct issues; move the build to review or live hosting; document the outcome.

03 / WEBSITES

Complete website project portfolio

Ten website projects form my consolidated development portfolio. The status below reflects my latest project update.

NO.	WEBSITE PROJECT	MY CONTRIBUTION	STATUS
01	Sri Pondy Fire Safety	Website pages, corrections, admin work and SEO support.	Completed
02	Srisai Kripa Hospital	Page templates, index implementation and website updates.	Completed
03	Naksatra	Website implementation and requested interface corrections.	Completed
04	Jenifer	Website project completed within my assigned development scope.	Completed
05	Saranya Pattu Center	Website project completed within my assigned development scope.	Completed
06	Karupusaamy	Website build, corrective updates, testing and bug fixes.	Completed
07	Blue Star	Index and supporting pages, gallery, imagery and SEO URLs.	Completed
08	Knock The Brain	Website updates and supporting admin-panel delivery.	Completed
09	Hindocha School	Home and supporting pages, imagery and bug corrections.	Completed
10	Chakra Cargo	Editable website, panel functions and ongoing project work.	In process

PORTFOLIO POSITION

Nine website projects are recorded as completed in my latest update. Chakra Cargo remains in process overall, with editable features and management modules already delivered. Website completion and public hosting status are tracked separately.

03 / WEBSITES

Website delivery in practice

Selected project records show my workflow from page construction and content integration to correction and deployment support.

01 Sri Pondy Fire Safety

Website pages, refinements and live support

Developed the index and product pages, progressed About content, and completed Training, Contact and Career pages. Reworked the index, fixed website issues and continued requested changes. Later work added SEO pages, footer changes, landing-page improvements and responsive testing.

Recorded delivery: Initial development in June; site moved live in August, followed by ongoing updates.

02 Blue Star and Hindocha School

School websites, imagery, SEO URLs and review builds

Built home and supporting-page structures, integrated imagery and completed corrective updates. Blue Star work included gallery updates and SEO-friendly URLs. Hindocha work included page templates, school imagery, requested changes and bug fixes.

Recorded delivery: Blue Star moved to Seytest on 16 July; Hindocha moved on 27 July. Both appear as completed in my latest project list.

03 Hospital, retail and service websites

Srisai Kripa Hospital, Naksatra, Jenifer, Saranya and Karupusaamy

Completed the five projects within my assigned scope. Dated records include Srisai hospital page/index work, Naksatra corrections and Karupusaamy implementation and testing. Jenifer and Saranya Pattu Center are included through my latest completion update.

Additional website support: Seyfert imagery, testimonials and URL fixes; Adisal Bay index and supporting-page work; Smile and Glow dynamic content features.

04 / ADMIN PANELS

Admin panel delivery

Completed admin work across four client projects, combining interface delivery with the management functions recorded for each project.

01 / COMPLETED

Pondy Fire and Safety

Designed the admin UI, completed the login page and finished the panel in June. Resolved admin bugs and followed up with website issue corrections.

Recorded milestones: UI/login on 16 June; panel completion on 18 June; admin fixes on 19 June.

02 / COMPLETED

Knock the Brain

Completed the admin panel as included in my consolidated project update. The dated logs also show Knock the Brain website change requests in June and July.

Contribution: Admin interface delivery and support for related website changes.

03 / COMPLETED

Smile and Glow

Completed the admin-related scope for managing dynamic website content. September work records a dynamic landing page, service addition and blog updates, alongside SEO presentation improvements.

Contribution: Connected ongoing content management with the public website.

04 / COMPLETED

Chakra Cargo

Delivered management modules for editable content, services, invoices and form submissions. Added Team Access and resolved functional and deployment issues.

Current position: The delivered admin scope supports the wider Chakra Cargo project, which remains in process.

ADMIN DELIVERY WORKFLOW

Identify the content or operational task, design the management screen, implement the relevant function, verify the public-facing output, fix issues and prepare the module for handover. Features listed above follow the supplied project records and completion update.

05 / EDITABLE PLATFORM - IN PROCESS

Chakra Cargo

Overall project status: IN PROCESS. Editable website features and management modules have been delivered within the continuing project.

I made the website editable throughout and combined public-page changes with management functions. The implemented scope includes email functionality, Team Access and a 12-column grid setup on every page.

DELIVERED AREA	IMPLEMENTATION SCOPE
Editable website	Made website content editable through the panel, supporting ongoing page updates.
Team Access	Added team access functionality as part of the management scope.
Email functionality	Implemented email functionality alongside the editable website and form-related work.
12-column grid	Set up a 12-column layout grid on every page to support consistent alignment and page structure.
Services and invoices	Completed dynamic service management and invoice updates in the September delivery cycle.
Forms and frontend	Completed form-submission handling and required frontend changes; corrected functional issues.

Delivery and handover sequence

21-24 SEP	Functional bug corrections and deployment troubleshooting.
25 SEP	Deployment error fixed; project handed over to Santhosh.
28-29 SEP	Remaining bugs fixed; service, invoice, form and frontend updates completed.

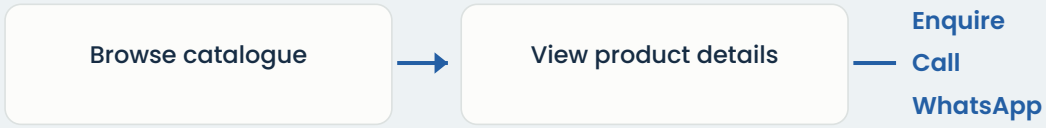

06 / MOBILE APPLICATION

Pondy Fire and Safety app

Mobile application work focused on a product catalogue and direct enquiry routes for customers.

I worked on the Sri Pondy Fire and Safety mobile application with a view-only catalogue, product information and customer contact options. The documented scope connects product browsing with enquiries, phone calls and WhatsApp.

CUSTOMER JOURNEY / FUNCTIONAL SCOPE

Customers browse products and choose a suitable contact route.

APP CAPABILITY	CUSTOMER PURPOSE
View-only catalogue	Present the available products in a browseable mobile format.
Product details	Provide product-specific information before the customer makes contact.
Enquiry form	Enable customers to submit an enquiry from the mobile experience.
Call integration	Offer a direct phone contact action.
WhatsApp integration	Offer a direct WhatsApp contact action.

DELIVERY RECORD

September records the mobile application workstream as progressed. The catalogue, product details and three customer contact routes form the documented scope, extending the client project into a mobile browsing and enquiry experience.

07 / SEO WEBSITES

SEO portfolio and method

Search work combined technical corrections, content delivery, location coverage and checks after publication.

CORE SEO WEBSITE	MY WORK
Pondy Fire and Safety	SEO/AEO/GEO pages, blog updates, footer changes and search visibility checks. August ranking evidence and September publishing totals are recorded.
Turbo Cooling Solutions	SEO audit, file-level updates, local blogs, title and image-alt changes, and multi-city keyword coverage.
Grass Enterprises	Recurring SEO/GEO/AEO publishing and a September bulk update milestone; creative support also recorded in June.
SS Hoteliers	Prepared five September blog items. Publication remained pending because the website was unavailable.
Smile and Glow	Regular SEO updates supported by dynamic blogs and services, SEO footer, SEO-friendly URLs and image-alt improvements.

Additional search and audit work

June audit work covered Freeze Aircon, Sri Krishna, Hype, 11:11 and W4all, with rework where recorded. Freeze Aircon updates included titles, meta descriptions, keywords, image alt text and SEO URLs. September also included Seyfert Infotech publishing and assigned Sri Sai SEO work.

PUBLISHING WORKFLOW

Prepare content around the assigned topic and location; review titles, metadata, URL structure and image alt text; publish or update accessible sites; check the resulting page; track delivery and unresolved access issues. AEO addresses answer-engine content and GEO addresses generative-search visibility.

07 / SEO RESULTS

August: recorded search visibility

The supplied August report documents delivery volume, keyword positions and captured Google AI Overview appearances.

194
PONDY SEO PAGES
SEO, AEO and GEO

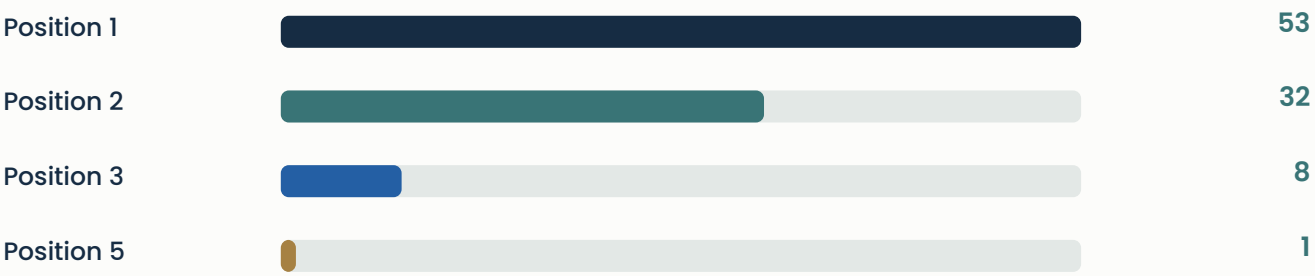

40
TURBO LOCAL BLOGS
Local content coverage

31
BLOG UPDATE ITEMS
21 Pondy + 10 Turbo

August activity log: 17 submitted days; 39h 1m recorded; 34 tasks - 19 completed, 7 in progress and 8 pending (55.9% completed).

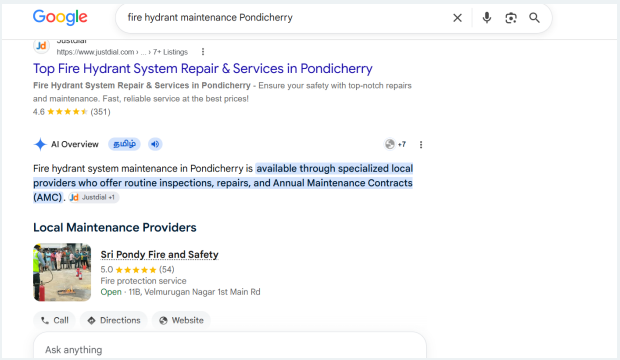

Pondy keyword-position distribution

94 tracked rows / 86 normalized unique phrases

Recorded result: 53 rows ranked at position 1; 93 of 94 were in the Top 3 (98.9%); all 94 were in the Top 5. These are August snapshots from the supplied report.

GOOGLE AI OVERVIEW / AUGUST CAPTURE

Three searches were documented:

fire fighting equipment company
fire hydrant maintenance Pondicherry
fire safety shop near me

Image: search capture from the supplied August report. Turbo coverage: 50 local blog links, 13 topics, 19 priority terms in six clusters, across Pondicherry, Villupuram, Chidambaram and Cuddalore.

07 / CONTENT DELIVERY

September: publishing at scale

Content production continued alongside dynamic website work, deployment fixes, testing and client reporting.

903
BLOG ITEMS HANDLED
Monthly reported total

898
PUBLISHED / UPDATED
Across accessible websites

5
PREPARED / PENDING
SS Hoteliers site unavailable

BRAND	ITEMS	PUBLICATION POSITION
Turbo Cooling Solutions	312	Published or updated
Pondy Fire and Safety	300	Published or updated
Grass Enterprises	185	Published or updated
Smile and Glow	81	Published or updated
Seyfert Infotech	20	Published or updated
SS Hoteliers	5	Prepared; publication pending
TOTAL	**903**	**898 published/updated; 5 pending**

Production and reporting milestones

24 September: Completed a 50-blog update milestone for Turbo Cooling Solutions and another 50-blog milestone for Grass Enterprises.
28 and 30 September: Completed two client reports followed by four more, bringing the month-end reporting total to six.

COUNTING METHOD

These are content items handled, including publishing and updating existing work. The 50-blog milestones belong within the September workload and are not added again. August page/blog counts are reported separately because the units and possible repeat updates differ.

08 / QUALITY AND DEPLOYMENT

Testing, correction and handover

Quality work supported website readiness, bug resolution, review deployments and project handover.

QUALITY AREA	WORK PERFORMED
UI and responsive checks	Checked assigned websites for interface issues, functionality and responsive behavior; corrected issues within the assigned scope.
CRM quality audit	Completed CRM testing on 28 July and prepared an Excel bug tracker to record issues for follow-up.
School website review	Updated Blue Star imagery, gallery and URLs. Fixed Hindocha website bugs and moved both school sites to Seytest.
Additional website testing	Tested Pope John Paul and JMJ in late July; performed Karupusaamy testing and bug fixes in June.
Functional verification	Resolved Pondy website/admin issues and Chakra functional and deployment problems before subsequent handover and updates.

Key delivery checkpoints

JUNE	Pondy admin bugs fixed; hospital review build moved to Seytest with requirements still to be added.
16–27 JULY	Blue Star and Hindocha moved to Seytest; subsequent website changes and testing continued.
AUGUST	Pondy Fire and Safety website moved live with SEO and footer updates recorded.
25–29 SEPTEMBER	Chakra deployment error resolved, handed over to Santhosh, followed by remaining fixes and module updates.

PRACTICAL OUTCOME

Testing and corrective work helped move builds into a reviewable or usable state, while keeping unresolved content and access dependencies visible. An Excel issue record and dated deployment milestones made the follow-up work easier to track.

09 / MONTHLY REPORTING

Digital marketing client reports

Monthly reporting for all assigned digital marketing clients formed part of my regular office responsibilities.

RECURRING RESPONSIBILITY

All digital marketing clients

Prepared monthly digital marketing reports for every assigned client, documenting completed work, delivery progress and the account position for review.

SEPTEMBER MILESTONE

6 client reports completed

Completed two reports on 28 September and four more on 30 September. This dated milestone supports the wider recurring reporting responsibility.

Monthly reporting workflow

STEP	REPORTING STAGE	PURPOSE
01	Consolidate	Bring together the client work completed during the month.
02	Summarize	Present SEO/content delivery, website updates and recorded outcomes.
03	Clarify status	Separate completed work, continuing activities and pending issues.
04	Prepare for review	Compile a clear monthly client report for review and follow-up.

Creative and team contributions

PROJECT / TEAM	SUPPORT PROVIDED
Seyfert / office media	Website visuals and testimonials; cricket/office-reel thumbnails, posters, image-generation and editing support; portrait/landscape screen recordings.
Client creatives	Posters for Sri Pondy Fire Safety and Grass Enterprises; Naksatra thumbnail/poster work; W4all pamphlet.
Sri Sai Institute	Shoot assistance and related thumbnail creation.
Wazentra / learning	Template selection and presentation creation; internal FS and MySQL session on 10 June.

10 / LEARNING AND CAPABILITIES

Newly learned technologies

My learning expanded beyond UI implementation into the frontend, backend and database layers of a web application.

FRONTEND

Next.js

Newly learned for frontend development.

Focus: page structure, reusable UI and the presentation layer of a web application.

BACKEND

PHP

Newly learned for backend development.

Focus: server-side processing, dynamic content and application functions.

DATABASE

MySQL

Newly learned for the database layer.

Focus: structured data storage, retrieval and support for dynamic application content.

Understanding the connected workflow

TECHNOLOGY LAYER	PURPOSE IN A WEB APPLICATION
Next.js frontend	Present pages and user interactions in the interface.
PHP backend	Process requests, handle application logic and support dynamic operations.
MySQL database	Store and retrieve the records required by the application.

Capabilities developed through project work

UI delivery: Page templates, imagery, responsive behavior and consistent page layouts.
Dynamic features: Editable content, service/blog management, forms and admin interfaces.
Quality and delivery: Bug identification, correction, staging support and deployment troubleshooting.
Search implementation: URLs, metadata, image alt text, local content and publication checks.

LEARNING RECORD

Next.js, PHP and MySQL are recorded as newly learned domains from my review update. Together, these layers extend my understanding from UI presentation to server-side application functions and structured data management.

11 / CONSOLIDATED REVIEW

Delivery summary and work record

The portfolio reflects UI delivery supported by dynamic functions, search work, testing, creative assistance and continued learning.

WORKSTREAM	CONSOLIDATED CONTRIBUTION
Websites	10 projects in the latest portfolio: nine completed and Chakra Cargo in process; page delivery, corrections, imagery and testing.
Admin panels	Delivered panel scope for Pondy Fire and Safety, Knock the Brain, Smile and Glow and Chakra Cargo; the wider Chakra project continues.
Editable platform	Chakra Cargo remains in process overall; delivered editing, email, Team Access, 12-column grids, services, invoices and forms.
Mobile application	Pondy Fire and Safety catalogue, product details, enquiry, Call and WhatsApp workstream; September record shows progress.
SEO websites	Five core client accounts, with additional Seyfert publishing and earlier technical SEO audits.
Monthly client reports	Prepared monthly digital marketing reports for all assigned digital marketing clients; six September reports are documented.
Professional growth	Next.js frontend, PHP backend and MySQL database learning; testing, documentation and cross-team support.

My contribution connected website development with content management, technical corrections, SEO publishing and monthly client reporting. Alongside delivery, I continued to build frontend, backend and database skills.

Source record used for consolidation

June daily log	Ranjith-june-report.pdf
July daily log	Ranjith-july.pdf
July monthly review	Ranjith_S_Premium_Monthly_Work_Report_July_2026.pdf
August results review	August-2026-Monthly-Report.pdf
September monthly review	Ranjith_S_September_2026_Monthly_Work_Report.pdf

Additional source: my latest project list, Chakra Cargo status, monthly reporting responsibility and learning updates. July records were reconciled. Historical milestones retain their recorded dates; latest project statuses follow my current update.
